CAREER OBJECTIVE

To work for reputed organization in a challenging and dynamic environment where I can use my skill set and knowledge to aid in achieving organizational goals. And challenge myself to grow more than yesterday and make huge connections

PROJECTS

Apex Response Crisis Management system (1 month)

Built full-stack crisis management platform using React and blockchain
real time SOS crisis verification by majority of nearest 25 people and ai verification
Used wallet address authentication mapped to google, ai advisor, language translation
Real time qr victims sheltering, weather alerts, reputation points and soul bound tokens

Music Recommender (2 weeks)

internship at Strokx Technologies, Kochi
Under Alay Jayan Sir
Implemented supervised and unsupervised ML models for recommendation
Compared multiple algorithms to improve prediction accuracy
Integrated ML backend with web interface via REST APIs
Reduced model response time through preprocessing optimization

12 angry jury (1 month)

Developed Solidity smart contracts for decentralized resolution.
Built responsive React frontend connecting MetaMask wallets.
Engineered Node.js backend integrating Pinata IPFS storage and conflicted summary
reputation points to increase rank from audience voting correctness to head judge
file complaint and get justice by staking points and chatting between jurer and audience

Web3Product verifier (3 months)

Built QR-based blockchain authentication system using Solidity
deployed smart contracts via Hardhat & OpenZeppelin
Implemented Soulbound Tokens (SBT) for ownership validation
Strengthened contract reliability using audited library

INTERNSHIPS

Chatting app

Strokx Technologies, Kochi, Kerala **June – July 2025**

Built ML-based music recommendation engine
Applied supervised & clustering models
Analyzed user behavior datasets
Integrated backend APIs with web interface

Music recommender

Null Class, Chennai, Tamil Nadu **June – July 2024**

Designed scalable chat application using Firebase
Implemented real-time messaging architecture
Optimized Firestore queries for faster performance

ACADEMIC QUALIFICATION	COURSES	YEAR	CERTIFYING BODY	GRADE
	Bachelor of Technology (Minor + Honours in AI)	2027	Cochin University of Science and technology	8.32 (Sem 5)
	Class XII	2023	Indian School Certificate	89%
	Class X	2021	Indian Certificate of Secondary Education	93%

CERTIFICATIONS

Jigsaw Abacus level 7

NPTEL Python for Data Science(ELITE + SILVER)

NPTEL Introduction to ML (ELITE)

NPTEL Blockchain and its application(ELITE)

Minor in Electronics (ongoing)

Honours in AI and ML (ongoing)

NPTEL PCB designing and CAD (EC Minors)_(ELITE)

NPTEL Electrical Measurement and Electronic Instruments (ELITE)

COMPUTER KNOWLEDGE

OPERATING SYSTEM
windows,linux

PROGRAMMING LANGUAGES
Python,C,C++,Java, php,MongoDB, MySql, Javascript,Solidity

WEB TECHNOLOGIES
react js,next js,javascript,css

DATABASES
mongodb atlas,pinata(ifps based),firebase,neon

SPECIALIZED AREAS
smart contracts,sbt, firebase , ML , DSA , Webapps

LANGUAGES KNOWN	LANGUAGES	PROFICIENCY
	Hindi	Native
	English	Professional
	Malayalam	Professional

HOBBIES

Chess ,strategic thinking,solving mystery
Roller Skating
